**General Information:**

The Investigator and Monitor can not be the same person. Investigators are responsible for conduct of studies and complete and accurate data collection. Study Monitors are responsible for supervision of the trials, adherence of the Investigator to the Study Protocol, and inspection of the site.

FDA and Rangen, Inc. will be notified of your facility's participation.

INAD study protocols, forms, and general INAD information can be found on the AADAP website located at <http://www.fws.gov/fisheries/aadap/home.htm> .
